The ULTIMATE Experience

Explore the world on a board and seek out adventure! At ULTIMATE we are committed to producing boards of exceptional quality, allowing riders to express their unique creative style without having to compromise on performance. All parts that make up a board depend on each other to perform properly. This is why ULTIMATE'S production team is so passionate about choosing the best, high quality materials. It's this careful composition of components that guarantees the ULTIMATE BOARDS experience.

Choose ULTIMATE BOARDS for unique shapes, original artwork and functionally superior boards!

Choose what fits your stance

More than any other style of skateboarding Surf Skating relies heavily on carving and pumping.

For optimal energy transfer your feet should have about the same distance to each other like the wheels. However, everyone has their own unique stance and preference where they feel most comfortable.

The Ultimate Borads NOVA Surf Skates come in two sizes each with two wheelbases for a customisable riding experience.

The longer wheelbase enables a wider stance, for smooth, stable carving. Whilst the shorter wheelbase offers a more nimble, responsive maneuverability.
