CURFBOARD

DESIGNED BY THE WAVE

Curfboard offers innovative surfskates that allow riders to carve and turn like they would on a surfboard.

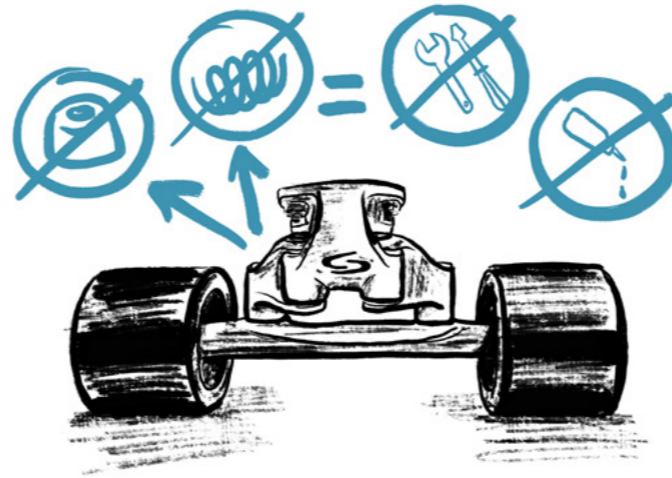

Made with high-quality materials, Curfboard provide a durable and high-performance experience, enabling surfskaters to take their riding to the next level.

CURFBOARD TRUCK

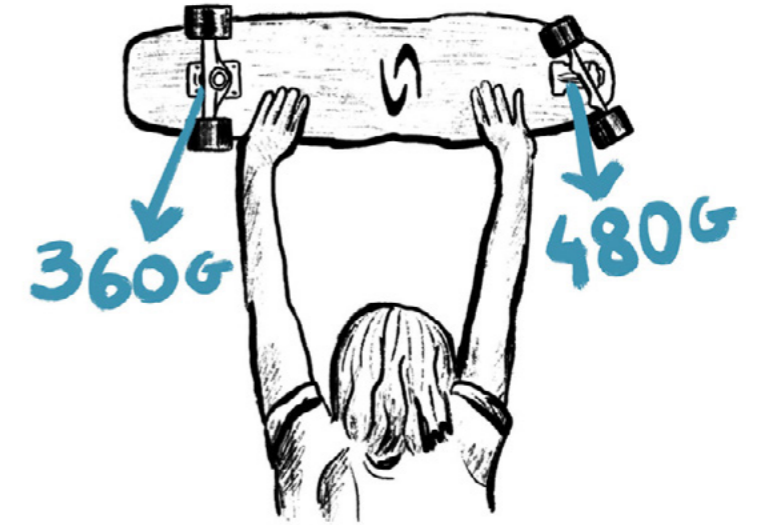

Our patented surftruck stands out for its innovative design.

Our patented surf truck is built with highest quality components and a unique technology that doesn't use springs or bushings. Which are the most fragile parts of other surfskates. Our truck also doesn't need to be greased, and yet is always offering a smooth ride.

**100% fun, 0% hassle,
Maintenance free!**

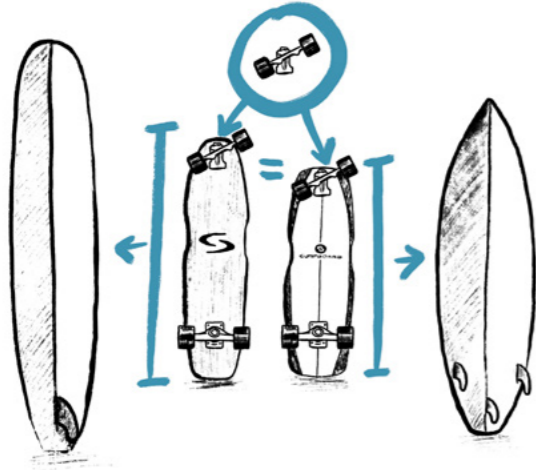

Forget about adjusting your truck or fixing it, we are all about skating!

**Travel light, but
bring the essentials!**

Lightest surf truck system. Great for traveling, even better for your aerial game!

CURFBOARD TRUCK

Become an all-around surfskater

Longboard & Performance with one single truck system.

Feels like you are in dreamy surf conditions.

Higher speed = better stability & no speed wobbles.

Lower truck system = more surf feeling and control.

Unique springless technology offers the real surf-experience

Initiate the carve via the back foot and rail and steer over the front foot through the turn like in real surfing.

**LESS
EFFORT,
MORE
SPEED**

**JUST
SIMPLY
MORE
FUN!**

OUR BOARDS

FISH

Ultimate surf feeling

Take your surf skills to the next level. Slightly longer than the Wave, its width and concave deck shape provides perfect grip and proper feeling for the board. Keep the back foot always stable, even in the hardest turns, slides or cut-backs.

PERFORMANCE SURFSKATE

Length 80.5cm (32inch)

Width 24cm (9.5inch)

Total weight 3kg (6,6lbs)

Wheelbase 56cm (22inch)

100% North American maple deck with griptape

All our boards come complete with

- Maintenance-free CURFBOARD front truck with the unique no-springs, no-rubber mechanism + Standard rear truck
- Wheels diameter 70mm (2.75") x width 50mm (1.97"), 82A softness for extra grip and smooth rides
- Ball bearings ABEC 7 with integrated spacer and speed rings

Note: All our boards are apt for people between 20 - 100kg
The CURFBOARD truck automatically adjust to your weight

WAVE

Shorter, wider and simply rad

The Curfboard Wave is shorter, wider and perfect for tight quick turns. The wider deck puts more wood under your feet for better control during carves and slides.

PERFORMANCE SURFSKATE

Length 74cm (29inch)

Width 24cm (9.4inch)

Total weight 3kg (6,6lbs)

Wheelbase 52cm (20,47inch)

100% North American maple deck with griptape

All our boards come complete with

- Maintenance-free CURFBOARD front truck with the unique no-springs, no-rubber mechanism + Standard rear truck
- Wheels diameter 70mm (2.75") x width 50mm (1.97"), 82A softness for extra grip and smooth rides
- Ball bearings ABEC 7 with integrated spacer and speed rings

Note: All our boards are apt for people between 20 – 100kg
The CURFBOARD truck automatically adjust to your weight

CLASSIC & LEILANI

Happy carving, surfy turning and speed generating for all levels

The Classic and Leilani are cruiser boards. They are long enough for you to be able to practice your cross-steps or to just have a fun smooth ride!

SURF CRUISER

Length 84cm (33,07inch)

Width 22,8cm (8,98inch)

Total weight 3kg (6,6lbs)

Adjustable wheelbase from 59cm (23,23inch) to 62cm (24,40inch)

Bamboo deck with transparent griptape

All our boards come complete with

- Maintenance-free CURFBOARD front truck with the unique no-springs, no-rubber mechanism + Standard rear truck
- Wheels diameter 70mm (2.75") x width 50mm (1.97"), 82A softness for extra grip and smooth rides
- Ball bearings ABEC 7 with integrated spacer and speed rings

Note: All our boards are apt for people between 20 - 100kg
The CURFBOARD truck automatically adjust to your weight

OUR STORY

It already started in the 80s when Stephan Augustin was playing around designing new kinds of skateboards to achieve the so desired feeling of surf and snowboard. Fast forward to 2015 we found the breakthrough with a self-adjusting surfskate that truly simulates the surfboard movements.

In 2016 a kickstart campaign was launched and Curfboard was officially created. Since then, we have sold over 10.000 units worldwide and we continue to grow steadily.

We believe in innovation and evolution so we keep working our boards and truck design and improving it constantly.
