Collection Overview

p. 128

The Brand

Poetic Collective was founded by Tom Botwid during his time studying at the the art academy in Berlin.

Poetic Collective is run from the Malmö office where we use the small-scale of the brand to our advantage. The focus is on creative graphics with an analog feeling, quality items and oversized silhouettes.

Poetic Collective strives to be a sustainable brand. Large parts of the collection is produced in Europe from organic cotton and post consumer recycled polyester.

Our philosophy of inclusivity and creativity is visible also in our diverse team of European skaters that is an integral part of the brand in every way. You can see them all in our latest full length video [NOW](#).

Ethic Production

We consistently aim to improve the production cycle of our collections and introduce sustainable materials into the skateboarding industry.

Today we are proud to say that a majority of our collection is made from organic materials. A large part of the apparel line is produced in Poland and Portugal. We work with small factories with both fair wages and working conditions.

Our office is based in Malmö Sweden where we as a small team work on the brand and all the designs. Our warehouse and logistics are run out of the city where Poetic Collective was founded, Berlin Germany.

Shapes

All our boards are made from high quality canadian maple and epoxy glue for long lasting pop.
All the board specifications are found on page 125.

Our Boards come in three different shapes

Popsicle:

A traditional Popsicle shape available from size 8 all the way up to 9 in medium and deep concave.

Square:

A square tail shape with a big nose and steep concave.

Fun Shape:

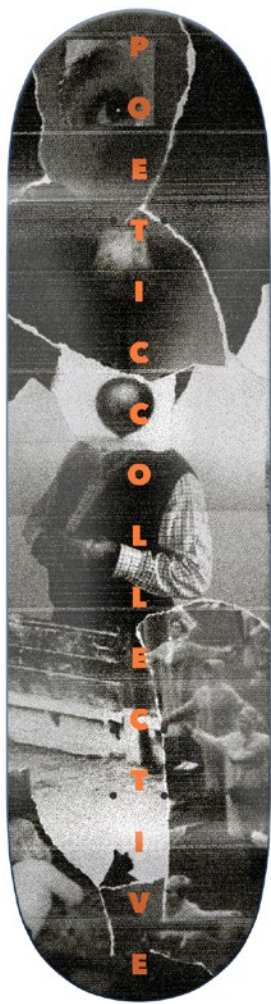

Massive 9.31 beast with medium concave, inspired by 80s board shapes.

A constant progression

One year ago we changed to an all organic and recycled polyester production for our t-shirts.

Now as the next step in our strive to progress towards being a more sustainable brand while simultaneously increasing the quality of our products we introduce our new basic hoodie, crewneck and zip hoodie that we use for all printed items.

All are made from organic cotton and post consumer recycled polyester, meaning that for each crewneck, 5 x 50 cl plastic bottles have been recycled to create threads and for each hoodie 6 bottles.

This is known as post-consumer recycling, i.e. these materials are given a “post-consumption” second life to prevent the use of virgin materials in textile production.

Certificate : OEKO tex standard 100, Organic Ecocert Greenlife, Licence N° 165651

Fabric content: 85% Organic ring-spun Combed Cotton/15% Recycled Polyester

Hoodies:

Our hoodies come in three different models and weights.

01. Heavy

A relaxed fit heavy weight 350 gsm hoodie with metal drawstring loops and a smooth brushed finish.
